

1-A description of the problem and a discussion of the background.

Taking a look at a specific bus stop in Toronto city, located at latitude = 43.649815 and longitude = -79.342163, we can see that there aren't many places to eat. However, there are quite a few places that are related to sports such as gyms, Baseball fields and a lake for rowing.

After doing some kind of exercise, we tend to get hungry. But the only options available are two Coffee shops.
